

Build over an easement application

Important information

Applications must be accompanied by all appropriate documentation, including two (2) copies of complete and properly prepared plans.

The application can be lodged by the owner, builder, architect/ draftsman or any properly authorised agent of the owner but it is recommended that the application be made either by or in consolidation with the Relevant Building Surveyor. The Council is acting in the role of a prescribed reporting authority when assessing these applications and can only address the application to the extent set out in the request. It does not replace or supplement for the Relevant Building Surveyor in determining compliance with other issues and siting provisions of the Regulations. An incomplete compliance assessment prior to lodgement of this application may lead to inappropriate decisions and delays in the ultimate permit process.

Appeal rights

An owner has rights of appeal to the Building Appeals Boards (Ph. 9285 6400) (within 30 days) with respect to any:

- Requirement of a reporting authority to give more information or amend a permit application (s138 of the Building Act 1993).
- The determination or exercise of discretion; or
- Failure within a reasonable time to make a determination or exercise that discretion (s144 of the Building Act 1993).
