Virtual ranger trail

- 1 A walk in the park** – lose yourself in nature, awaken your senses.
- 2 Towering tree ferns** – wander through an avenue of ancient tree ferns and discover the vast array of organisms inhabiting this forest.
- 3 An Emerald Lake Park ecosystem** – connect with your environment and truly appreciate the cycle of life.
- 4 Step back in time** – learn about the park’s historical significance, previously the largest nursery in the Southern Hemisphere exporting trees all over the world.
- 5 Throw a little wish into the well** – stroll the path with nursery man Carl Nobelius.
- 6 Who’s in the park after dark** – discover the park’s nightlife of tiny mammals and big-eyed predators.
- 7 Turning a new leaf** – restoring the balance of indigenous flora to create habitat for our local fauna.
- 8 Life around Lake Nobelius** – explore the rich tapestry of life at the water’s edge.
- 9 Of blackwoods and birds** – pause a while and meet some locals.
- 10 A place of life and leisure** – lasting memories have long been planted here.
